- You can switch out of this Portfolio Strategy at any Policy Anniversary by giving a written notice to the Company 30 days in advance.

3) Trigger based Portfolio Strategy II

- You can opt for this Portfolio Strategy at the commencement of the Policy
- Under this Portfolio Strategy, base premiums and Top up Premiums if any, (after any Premium Allocation charge) will be allocated between two Funds, Equity Growth Fund II (an equity-oriented Fund), and Bond Fund (a debt-oriented Fund), in a 75%: 25% proportion.
- The Fund value proportions may subsequently get altered due to market movements. On the pre-defined trigger event mentioned below, the Funds will be re-balanced or reallocated.
- The trigger event is a 15% upward or downward movement in unit price/NAV of Equity Growth Fund II or in the unit price/NAV of the Bond Fund, since the previous rebalancing

or from the unit price/NAV at the inception of the Policy, whichever is later.

- On the occurrence of the trigger event of 15% upward movement with respect to:
 - The Equity Growth Fund II, any value of units in Equity Growth Fund II which is in excess of three times the value of units in Bond Fund is considered as gains and is switched to the Liquid Fund - by redemption of appropriate units from Equity Growth Fund II.
 - The Bond Fund, any value of units in Bond Fund which is in excess of three times the value of units in Equity Growth Fund II is considered as gains and is switched to the Liquid Fund - by redemption of appropriate units from Bond Fund.
 - This ensures that such gains are capitalized and protected from future equity market fluctuations, while maintaining the asset allocation between Equity Growth Fund II and Bond Fund at 75%:25%.
- On the occurrence of the trigger event of 15% downward movement with respect to the Equity Growth Fund II or the Bond Fund, units in the Liquid Fund, if any, will be switched to the Equity Growth Fund II and the Bond Fund such that, after transfer, the ratio of the value of units in the Equity Growth Fund II to that in the Bond Fund is restored to 75%:25%, to the extent possible and subject to availability of units in the Liquid Fund.
